AWG is common interests and shared concerns
With over 1100 members worldwide, AWG members represent a wide range of disciplines and career paths in the geosciences including academia, industry, business and government.

AWG is mentors, friends, opportunity, adventure, skills, and ideas
Through mentoring and networking, lasting professional and personal relationships are built by our members. Experiences learned by AWG members are shared with the greater geosciences community.

AWG is personal fulfillment and professional success
Our diverse membership is brought together by a common love of Earth science and the desire to ensure rewarding opportunities for future generations of women in the geosciences.
